

90-DAY PRESCRIPTION FILLS

Filling your medications just got easier with the Cigna 90 Now program

You have a lot going on. Remembering to pick up your refill each month isn't always easy. We have a program that can help - it's called Cigna 90 Now.

The **Cigna 90 NowSM** program makes it easier for you to fill your maintenance medications. These are the medications you take on a regular basis to treat an ongoing health condition like asthma, diabetes, high blood pressure or high cholesterol.

With the Cigna 90 Now program, your plan covers maintenance medications when you fill them:

1. In a 90-day (or 3-month) supply,¹ and
2. At an in-network retail pharmacy that's approved to fill 90-day prescriptions or through Express Scripts[®] Pharmacy, our home delivery pharmacy (if your plan allows).²

A 90-day supply helps make life easier

You'll make fewer trips to the pharmacy for refills. And you're more likely to stay healthy because with a 90-day supply on-hand, you're less likely to miss a dose.³

Your plan only allows a certain number of fills in a lesser amount. Once you run out of those fills, your plan will only cover your medication if you fill it in a 90-day supply.

Choose the pharmacy that's most convenient for you. Retail or home delivery.²

There are thousands of retail pharmacies in your plan's network. They include local pharmacies, grocery stores, retail chains and wholesale warehouse stores - all places where you may already shop. **Every pharmacy in your plan's network can fill 30-day prescriptions, and a select number of pharmacies can fill 90-day prescriptions.**

Here are some of the retail pharmacies in your plan's network that can fill a 90-day prescription.⁴ To see a full list, log in to the **myCigna[®]** App⁵ or **myCigna.com[®]**,⁶ or go to **Cigna.com/Rx90network**.

1. Some medications aren't available in a 90-day supply and may only be packaged in lesser amounts. For example, three packages of oral contraceptives equal an 84-day supply. Even though it's not a "90-day supply," it's still considered a 90-day prescription.
2. Not all plans offer home delivery as a covered pharmacy option. Please log in to the myCigna App or website, or check your plan materials, to learn more about the pharmacies in your plan's network.
3. Internal Cigna analysis performed Jan 2019, utilizing 2018 Cigna national book of business average medication adherence (customer adherent > 80% Proportion Days Covered), 90-day supply vs. those who received a 30-day supply taking antidiabetics, blood pressure medications, and statins. Results may vary.
4. Participating Cigna 90 Now pharmacies as of January 1, 2023. Subject to change.
5. App/online store terms and mobile phone carrier/data charges apply.
6. Customers under age 13 (and/or their parent/guardian) will not be able to register at myCigna.com.
7. Standard shipping costs are included as part of your prescription plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna representative.
